

DIABETES AWARENESS

This 3 Hour course will give learners the skills and knowledge to understand the importance of recognising person-centred care when supporting someone with Diabetes.

Learners will be provided with the knowledge to understand the different types of Diabetes, signs, symptoms and how to respond to Hyper or Hypo episodes and how to effectively communicate with individuals and other services in order to report any concerns.

By attending this session, learners will be able to:

- Discuss what Diabetes is, and the different types
- Recognise signs and symptoms of Diabetes types
- Explain the difference between Hyperglycaemia and Hypoglycaemia, and how to respond when an episode occurs
- Identify complications with individuals who have Diabetes, and how it affects the body
- Recognise how to care for the Elderly with Diabetes

Training can be held at our Training Suite in Wakefield
